Don't Take Our Word for It. Here's What Innovia Clients Have Achieved:

"I place a heavy emphasis on soft skills and look for three 'C's in my partners – culture, chemistry and creativity. Innovia perfectly captures that. They make us a smarter organization, they make us a priority when problems arise, and they treat us like family and not just another number in their portfolio."

Tony Darden, Chief Information Officer at Caplugs

"I don't think we could be where we are today without the partnership with Innovia since 2007. They've really taken the time to know our business and know what I expect to happen. It would terrify me to start with someone else and have to explain all that again. Innovia cares about the end result and customer satisfaction."

Rob Newhart, Vice President / CIO at SingleSource

"My life is so much easier. Because I run all the technology for the business from the internet to phone to software solutions, to know I have a team in Innovia that I can call on 24/7 if something comes up that we can't solve ourselves means I can sleep a lot sounder at night."

Rik Fleming, Director of Technology at OMT-Veyhl

"When we work with Innovia, they focus on the relationship, the process, and the quality outcome. They really are advocates to make sure that we have business success."

Andrea Hall, IT Director at Stonewall Kitchen
