Integrate and Automate Your Microsoft Environment with Unparalleled Simplicity

The Industry-Leading iPaaS for Microsoft Dynamics Partners and Customers

G2 Best Usability SPRING 2022

G2 Leader SPRING 2022

G2 Best Results Mid-Market SPRING 2022

G2 Highest User Adoption Enterprise SPRING 2022

Leverage Celigo's unique innovations to enhance your Microsoft business

Drive customer transformation and increase your profitability with iPaaS capabilities that far exceed those of other vendors — and offer significant advantages over Power Automate and Logic Apps. Leverage Celigo to deliver business process automation across your Microsoft customer environments by seamlessly integrating and automating every app.

Automate Literally Everything
Utilize prebuilt and custom connectors to instantly integrate and automate 100s of SaaS apps — without custom code.

Single Scalable Platform
Manage entire organizations from a single pane of glass and easily expand into new apps and use cases as roadmaps evolve.
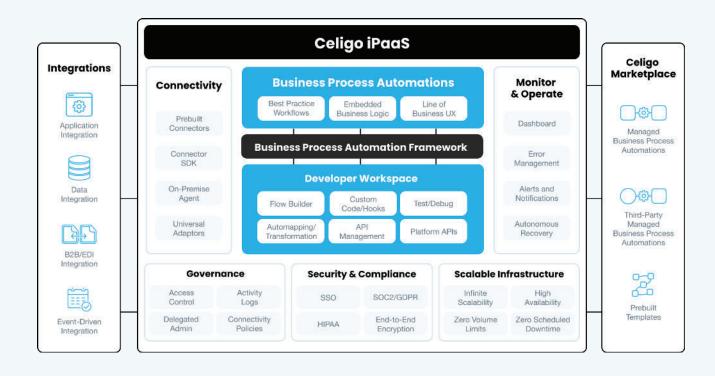

Accelerate Time to Value
Slash automation time by 5x via low code development and repeatable integration use cases that free up senior staff.

Effortless Self-Service
Empower both IT and business teams with self-service business process automation while ensuring unified best practices.

Seize the Advantage with Celigo

Leverage Celigo's integrations, flexibility, and scale

Close more deals, grow your margins, and improve client satisfaction with a solution that seamlessly supports the entire customer organization — now and for years to come. Celigo's modern iPaaS experience ensures optimal automation for every business process.

Intuitive
Reduce learning curves and allow for easier allocation of resources

Scalable
Support hundreds, thousands, or millions of orders a day

Flexible
Complete control with no code or advanced custom code options

Compliant
SOC 2 Type 2, GDPR, and more

Reliable
Prevent data loss when endpoints are offline

Go Further, Faster

Optimize customer business processes—and your own

As your customers grow, Celigo enables you to easily add and refine customer workflows, integrate new applications, and flexibly meet new requirements — all via a scalable, cost-effective solution that delivers the lowest TCO in the industry.

✓ **Guided User Interface**
Utilize a step-by-step wizard with visual field mapping, drop-down menus, and other tools for no-code integrations

✓ **Complex Orchestrations**
Support complex processes by integrating multiple apps and data sources as part of a single integration flow

✓ **Proven Robustness**
Ensure scale to handle a large volume of customer transactions without any additional transaction fees—even during peak periods

✓ **Advanced Developer Tools**
Leverage advanced tools to create and share stacks, generate tokens for direct API calls, build wrappers, and more

✓ **Build Your Intellectual Property**
Develop roadmaps for business process automations and clone or productize your custom integrations to sell to new and existing customers

✓ **No API Management**
Eliminate ongoing API maintenance costs. Celigo proactively updates APIs to ensure you run smoothly

✓ **User-friendly Dashboard**
Monitor and manage integrations, access error details, re-run integrations, and receive alert notifications

✓ **Universal Adaptors**
Connect with any application or data source using adaptors for REST/JSON, XML, FTP, AS2, EDI, SQL, web hooks, on-prem, and more

> *Celigo gives you the ability to manage the exceptions, not the minutia. You see what's wrong, take five minutes to fix it, and away you go. Without Celigo, we'd probably have 10 or 15 more people doing all this work with us. Now, we're truly running a business instead of a business running us.*

We're committed to your success

Count on end-to-end Partner support

The Celigo Partner Program provides Partners continuous support from pre- through post-sale activities. With a robust Partner Portal, extensive enablement, free training opportunities, and more, we're laser-focused on helping you succeed. Here's what you can do in the Celigo Partner Program:

✓ **Access Free Training**
Enjoy free, fast onboarding, training, and certification via Celigo University, as well as all the on-demand resources you need. Here you'll also find extensive product documentation — from demos and webinars to case studies and whitepapers.

✓ **Stay in Close Contact**
Connect with us via our web-based Celigo Partner Portal to track deal status info, open opportunities, pipeline, and approval confirmations. As you register new deals, you're given priority for the lead and your pricing is protected.

✓ **Utilize Our Help Center**
Tap into Celigo Help Center sections on what's new, how-to's, related articles, office hours, live trainings, and links to on-demand training and certifications— and of course feedback and answers from Celigo community experts and peers.

✓ **Check Out Celigo Live**
If you prefer instructor-led training, certain Celigo University course content is now available via online instructor-led training sessions. In these sessions, you'll be able to ask questions, dig deeper into integrator.io, and connect and engage with other learners.

✓ **Let's Co-Market**
Co-marketing opportunities for partners abound at Celigo—including campaigns in a box, guest blogs, success stories, in-person events, and marketing development funds—depending on qualification level.

Partner with us.

Schedule a Business Planning Session with one of our Strategic Partner Managers. Learn more at celigo.com

> *We have a lot of flows built out on Celigo. Our Dynamics integration has been working so smoothly I haven't logged into Integrator.io in several weeks.*
